EDITORIAL

Calling out around the world, are you ready to beat your meat? Summer's here and the time is right, for cumming on Barbara's feet...

Hello and welcome to (yet another) very special issue of B MAGAZINE, brought to you in association with Legsworld and the Goddess Lady B herself.

As I said in the last issue, we were thinking of making some changes around here and we have done. You might have noticed already - but Lady B and I have decided that from now on B MAGAZINE will be produced quarterly. Meaning that there will be four issues per year - Spring, Summer, Autumn/Fall and Winter. But don't panic. The change is for the best.

B MAGAZINE started on a high over a year ago but in recent months I've felt the standard drop. Putting together a really great issue every single month is a big commitment that takes a lot of thought and time. I feel some of the recent issues were a little rushed, not as good as they could have been and, for that, I apologise.

Putting out less issues means every single B MAGAZINE from now on will always be the very best it can be. We've shaken up the design, the "feetures" and added more pages. I hope you agree that this issue is a real step up in quality.

If you're not happy about it then, of course, feel free to voice your opinion and we'll take your comments on board and maybe revisit our decision in the future. For now though, we feel it makes sense to shake things up a bit...

You can give your feedback in the Legsworld chat, by emailing me or by emailing Lady B directly at Lady.B@Legsworld.info. I have had some issues with emails getting to me so if you get no reply, give me shout in the chat. I'm usually lurking...

We really hope you and your erection like the new direction.

AT HOME WITH B: SUMMER EDITION

With no pool boy in sight, Lady B must do the work herself. Teetering on high black mules with her perfect tits swinging freely in the Spanish sun, she gets to work. If only you could be there to assist her with her duties. Maybe you have a long, hard pole she could grab onto?

After her pool cleaning work, Lady B deserves a rest. She must take care of her body and feet. She never knows when there might be a hard cock desperate to use her for some quick relief and she must make herself available. That's why she keeps her bare pussy and feet always ready for some licking and sucking. Who knows? Maybe the pool boy will arrive late and give her soles a good pumping? Or the delivery guy? Or the builder? There are numerous men who visit every day to empty their balls between her arches and over her tits. She services most of the men in the local village.

Finding some time to read a magazine, Lady B gets on with completing a few more chores around the house. While she is bent over, her husband returns home for lunch and gives her a good fucking from behind - pulling on her tits and banging his cock into her. Filling her full of cum as she perches on her mules.

A local "friend" drops by for a chat and it's perfect timing. She asks if he would mind oiling up her feet so she can tan. He calls his wife to let her know he will be home a little later than expected but there's no funny business going on here. Barbara simply needs to use his cock to keep her feet steady while he does his important and necessary work.

Once her husband is finished, Lady B changes her mules and pours a cool drink to enjoy on the terrace while her pussy recovers from the good pounding he gave her. Normally she will have one of her house boys serve her drinks during the day - wanking off their hungry, throbbing erections until they squirt into her glass so she can taste of their freshly squeezed cum in her cocktail. Then she demands a load all over her body. It's how she keeps her youthful looks.

It's back to the household chores and time to take care of the dogs. Most days she will have a house slave following her around naked on all fours - slobbering all over her feet and humping her legs... She must be careful in the mules not to slip in the puddles of cum left on the tiled floor of her villa by her devoted "bad boys". But they're more than happy to lick them up whenever she finds one.

After another typically busy day and with all the chores done, it's time to strip off and finally enjoy some late afternoon sun. Looking glamorous as always, Lady B retires to the sun lounge to await her husband's return with open legs. This evening they are expecting some of his work colleagues over for a BBQ so she must rest up before she is required to do her hostess duties. The men are regular guests at the B Household and on arrival will enjoy a few drinks while enjoying a good grope of Barbara's body through her tight-fitting outfit - exposing her tits, pussy and ass while they gather round to squeeze and play with her while she wanks them off over her legs and heels. At the end of the night when they return to their wives, the sex goddess will need to wipe off the cum and get ready for another busy day tomorrow. There's always a lot happening at home with Lady B.

SNATCHES FROM SPAIN

Every year, Legsworld and Boutique B employees are treated to an all-expenses paid, two-week trip to Lady B's luxury villa in Spain to reward them for their efforts and get them motivated for the coming months. It always does the trick... Here is a small selection of photos and behind-the-scenes stories from this year's excursion.

On this particular day, Lady B was busy trying on some new lingerie and I happened to surprise her as she was changing her heels. Within minutes she was on her back - her husband was fucking her perfect little pussy while I sucked on her toes through the expensive designer stockings until blasting all over them.

There are always important business calls for Lady B to take care of. Here, while she chatted to a potential new investor, I helped her to negotiate the deal by first cleaning her dirty feet with my mouth and then planting my hard, hot rod between her soft, wrinkled soles and letting her have her way with it until I squirted. I know her brain works best when she has cock at her toes and I'm always professional enough to assist her in whatever way I can.

You can always find Lady B relaxing on the terrace in the morning after a night of non-stop partying, dancing and fetish sex. Male guests at Casa B often like to start the day by asking for a brief handjob from her long, manicured fingers or fondling and fucking her nylon legs and feet before enjoying breakfast.

The afternoons are for trying on new heels to be sold in Boutique B and used in new Legsworld photoshoots. A long line of "shoe cocks" forms by the pool as each pair is put through rigorous testing, pumped full of cum and rated.

After dinner we discuss more business ideas using our one golden rule - if it jerks, it works!
