EDITORIAL

First of all, sincere apologies for the delay on this Autumn/Fall 2019 issue of B MAGAZINE.

Sorry for the wait...

I'd love this to be my full time job but, unfortunately, it isn't. Sometimes real life gets in the way and I just don't have the time needed to pull together the great looking magazine that Our Glorious Goddess deserves.

But here we are again, finally, with another issue. It always takes a bit longer than it should do because working with all these photos it's virtually impossible not to pull your cock out and start wanking but, hey, that's exactly what Barbara wants us to do. So it's all good right?

It's Thanksgiving coming up and, while I am not an American, I want to say thank you to Barbara. Thank you on behalf of myself, all the readers of B MAGAZINE and the thousands of men you've emptied of cum worldwide for just being you. You are a truly incredible gift and we are indebted and devoted to you and always will be.

One rubber cock ring was broken in the making of this issue. So you know it's going to be a good one!

Enjoy.
